

High Pressure Boiler Operator Training

April 6 - June 29, 2017

Thursdays, 6:00-9:00pm

This course will provide you with the knowledge and techniques necessary to operate high pressure boilers and associated equipment. It will also teach you how to operate and maintain a steam generating plant in a safe and efficient manner. Course emphasis is on boiler classification, design, accessories, and theory of operation, as well as State of Maine boiler rules.

THE DETAILS

- 45 hours
- 3 credits
- \$495 (books additional)
