

AUTOMOTIVE COLLISION REPAIR

SUCCEED HERE

PROGRAM PURPOSE

NMCC's automotive collision repair program is the only collegiate program offered in northern New England. It is designed to provide broad fundamental training in the repair of collision damage, frame straightening, and the replacement of body panels. Welding, cutting and grinding, the use of plastic and fiberglass in preparation for the application of paint, and SMC panel and plastic parts repair are all included in the curriculum. The second year of the program provides more emphasis on major collision appraisal and repair as well as the auto body refinishing process. Emphasis is also placed on base coat, clear coat and tri-coat paint and electronic color matching.

The automotive collision repair program has achieved Master Level certification by the National Institute for Automotive Excellence (ASE) after a thorough evaluation.

NMCC offers the only collegiate level automotive collision repair program in northern New England!

CAREER OPPORTUNITIES

Graduates will find job opportunities with:

- auto body and paint shops
- new and used car dealers
- auto glass shops and truck body builders.

With experience, advanced positions may be available in:

- supervision
- insurance adjusting
- sales and service
- self-employment
- auto product field representation

Sample courses include *Structural Analysis/Plastics, Painting and Refinishing, and Automotive Electricity.*

APPLICATION PROCEDURE

The following procedures constitute the admissions process:

1. Submit an NMCC application along with a \$20 application fee.
2. Submit official high school transcript and/or HiSET/GED scores (current senior's transcript should include completed ranking period grades).
3. Official college transcripts for applicants who have attended other post-secondary schools.
4. If SAT scores are not available, placement testing may be required.
5. Individual interview required.
