PROGRAM PURPOSE

These certificate programs are designed to meet the needs for well-trained EMTs and paramedics. The programs follow the National Emergency Medical Services Education Standards for Paramedic Education and meet or exceed the national standards for minimum clinical, didactic, lab and field externship hours and competencies. The programs are offered with ongoing approval from the Maine Emergency Medical Services, the Commission on Accreditation of Allied Health Professions (CAAHEP) and follow the standards and guidelines of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).

The core EMS courses ensures the student is prepared to function as a competent EMS provider upon course completion and includes but is not limited to such content as the study of cardiac emergencies, emergency resuscitation, medical/legal issues, pharmacology, psychological emergencies, trauma, obstetrics and gynecology, pediatrics, and neonatal care. A variety of clinical resources will be utilized to aid the education and preparation of the EMS student which include clinical rotations in the hospital/acute healthcare setting, field externships at ambulance services, as well as utilizing the Northern Maine Community College (NMCC) EMS simulation center.
