

PLUMBING & HEATING TECHNOLOGY

CAREER OPPORTUNITIES

Graduates qualify as technicians in the HVAC trades. They will find employment opportunities with:

- Plumbing and heating contractors
- Maintenance positions
- Plumbing, heating and HVAC sales.
- Refrigeration and air conditioning positions

Additional experience may provide opportunities as managers, supervisors or business owners

APPLICATION PROCEDURE

The following procedures constitute the admissions process:

1. Submit an NMCC application.
2. Submit official high school transcript and/or HiSET/GED scores (current senior's transcript should include completed ranking period grades).
3. Official college transcripts for applicants who have attended other post-secondary schools.
4. If SAT scores are not available, placement testing may be required.
5. Meet with an Admissions Counselor.
6. A campus tour is highly recommended.

PROGRAM PURPOSE

Plumbing and heating is a two-year program providing instruction in all phases of repair, maintenance, and installation of plumbing and heating equipment. The first year of the program is spent in the plumbing lab learning to work with several types of pipes including copper, steel and plastic. Plumbing fundamentals will be emphasized along with water pump systems and domestic water distribution. In the second year, students study the fundamentals of both propane and oil heating systems including system design, sizing and troubleshooting. Individuals will be involved in the hands-on practice of installation, maintenance and adjustment of equipment, as well as the wiring of electrical components of oil and propane burners, including troubleshooting, testing and adjusting. Students also gain experience in alternative heating systems including heat pumps. The program prepares students for several certifications and licenses in the fields of plumbing, heating, propane and refrigeration.

Completion of the plumbing program gives graduates eligibility to take the Journeyman Plumbing examination. Graduates of the heating program may be eligible to take the Journeyman Oil Burner License examination.
